

Grid-cell status	Definition	Interpretation
Disappeared	Records present in 2016 but absent in 2025	Retail activity disappeared from the cell
Declined	Records present in both years, but fewer records in 2025	Retail activity weakened
Persistent	Records present in both years, with no change in count	Retail activity remained stable
Intensified	Records present in both years, with more records in 2025	Retail activity strengthened
Emerged	No records in 2016 but records present in 2025	New retail activity appeared

Note: Grid-cell status is classified by comparing OpenLocal retail record counts within each 250 m grid cell between 2016 and 2025.
